Product Catalogue

2024/2025 Edition

75 years | We celebrate our history and look to the future with optimism and enthusiasm, committed to innovation, quality and sustainability.

1949

Foundation of the company

Arturo Velilla begins to work with his brother Isidro in the manufacture of workwear. Their activity consisted of manufacturing and selling trousers and overalls.

1960

Registration of the company as "Velilla Hermanos, S.L."

Following their commercial success and constant growth, the brothers Arturo and Isidro Velilla set up the company under the fiscal name of "Velilla Hermanos, S.L." in the Mercantile Register of Madrid.

1972

Launch of the first general catalogue

Velilla's first specialised general catalogue is launched on the market, with a wide range of garments in permanent stock.

1976

The first delivery route is established

Offering the best service to our customers has always been one of our priorities. Therefore, we established the first delivery route in the Madrid region. This reduces delivery times and provides a personalised service.

1985

New company name "Velilla Confección Industrial, S.A."

The company's name is changed to reflect a change of ownership, with Arturo Velilla and his children becoming the sole owners.

1989

First imports

In addition to working with national workshops, Velilla starts manufacturing in Asia, guaranteeing the volume and delivery times demanded by the market.

2000

Launch of the 345 trousers

One of Velilla's most iconic trousers is launched: the 345 multi-pocket trousers. A comfortable and versatile garment with a timeless design that becomes the best ally of many workers.

VelillaGroup.

Equipped for living

1949 — 2024

2001

Change of headquarters: Calle Juan de la Cierva (Coslada, Madrid)

The Head Office moves to its current headquarters in Coslada, improving its service to customers thanks to a new computerised warehouse.

2007

International expansion

Exports to foreign countries begin to take place on a regular basis. Velilla's presence in Asia is consolidated through its own office in Vietnam, participating more closely in product development and quality control.

2009

Automated logistics centre in Albacete

Due to the great growth of the company, it was decided to invest in the construction of a modern 14,300 m² logistics centre, located in Albacete, in which the most innovative technology in the textile sector has been implemented. With a capacity of 10 million garments in stock, it delivers more than 250,000 orders per year in less than 48 hours.

2013

Launch of trousers 103002S

May 2013 saw the launch of our famous 103002S multi-pocket stretch trousers, the successor to our legendary 345 trousers, which quickly became a best seller.

2020

Acquisition of MUKUA and opening of subsidiary in Portugal

In 2020, MUKUA, a promotional textile brand, was acquired, completing the company's product portfolio focused on its international expansion.

Simultaneously, this acquisition gave rise to the Portuguese subsidiary. A sales and customer service team at the disposal of all customers in Portugal and focused on continuing the Group's expansion in this territory.

2021

New company name: "Velilla Group, S.L."

It was decided to change the company's name in order to encompass its three brands and to accompany the Group's strong internationalisation.

2022

Green Project by Velilla Group

Creation of the "Green Project", a perennial programme which encompasses and promotes all the initiatives carried out by Velilla Group to care for our planet and all of us living on it.

2024

Expansion of the logistics centre

In 2024, the expansion of the logistics centre is inaugurated. Its size is doubled, to almost 27,000 m², giving it the capacity to store and move more than 24 million garments, with the best technology on the market, and to provide a competitive printing service.

VelillaGroup. Equipped for living

A family business going global

We are an international, family-owned company that for 75 years has been designing, manufacturing and distributing technical workwear with impeccable service, ensuring quality, style and comfort.

We have more than 30 years of experience in international markets, with our own offices in Spain, Portugal and Vietnam, as well as clients all over the world.

Customer satisfaction

The fact that our sales network and customer service receive the highest satisfaction ratings is a true reflection of our obsession with service and quality. And this motivates us to keep improving.

Our ability to adapt to the needs of our clients, and to be able to work with both small and large volumes, in addition to offering a wide range of colours and sizes, together with personalised advice on printing techniques, has made us a current benchmark in corporate workwear and advertising textiles.

● Follow us on social networks

Logistics centre

We have a state-of-the-art logistics centre, equipped with the latest technology, located in Albacete. Following its expansion, it has doubled in size to almost 27,000 m² of floor space, being able to reach an annual storage capacity of 24 million garments.

Moreover, thanks to the expansion of our multi-order picking stations, we at Velilla Group have increased our order capacity to 97,000 garments per day and we can process more than 500,000 orders per year in less than 24 hours. This allows us to serve customised orders, both nationally and internationally, to our customers.

Printing

We have our own 1,500 m² printing workshop with the latest technology in screen printing, DTF and embroidery, as well as highly qualified staff.

To go even further in our value proposition, our printing workshop is a pioneer as it is certified under the Global Organic Textile Standard (GOTS). Thanks to this, by printing our MUKUA Natura collection, we can guarantee full GOTS certification and traceability of the garments, even after customisation.

75 years | Looking to the future

VelillaGroup.

Equipped for living

Our Brands

At Velilla Group we manufacture three major international brands: Velilla, VPRO and MUKUA, whose catalogues are updated incorporating new references and novelties keeping up-to-date with the market.

velilla

Our leading brand specialising in workwear, with an extensive catalogue of over 350 references divided into 5 families:

- High visibility
- Industry
- Food industry
- Healthcare and Services
- Hospitality

V/PRO

Our safety footwear brand.

Our products, certified in compliance with all current regulations, are backed by the best customer service and total stock availability.

We create designs focused on the needs of our clients' workers and their sector of activity with the aim of developing the best safety footwear on the market.

MUKUA

Our brand of promotional textiles.

It is modern and creative and has a well-defined commitment: offering you the style and comfort that inspires you the most.

All this without forgetting sustainability through our eco-responsible line: MUKUA Natura.

Greenproject.

by *Velilla Group*

At Velilla Group, we have been working for many years with our sights set on the future. Offering a value proposition to our clients and generating a positive impact on our environment have always been among our priorities.

We believe that the role of business as a transformative force in society is essential to be able to contribute to the creation of long-term sustainable development, without compromising social and environmental needs.

For this reason, **Green Project** was launched, a program that is part of our commitment and where we encompass and promote all the initiatives that we carry out to take care of our planet and all who live on it.

The use of renewable energy, reducing paper consumption, even printing the pages of this catalog in an environmentally friendly way, are just a few examples of all the measures and policies contained in this ambitious project.

More information at:
www.velilla-group.com/en/greenproject-en

This catalogue is printed on FSC certified paper

The raw material comes from forests certified by independent experts to ensure that they are managed according to strict national and international standards. In this way, we contribute to stopping deforestation and we are supporting foresters and forest owners who care for and manage their forest lands sustainably.

UNE-EN ISO 14001 international standard

It is the reference standard for the implementation of a Management System that helps to control the environmental aspects that may arise during business activity.

Velilla Group complies with this standard by establishing commitments through proactive decisions aimed at protecting the environment against possible deterioration and degradation.

With the identification and management of risks achieved with this standard, both risk prevention and environmental protection are taken into account, following the legal regulations and the socio-economic needs required for compliance.

In addition, a plan is established setting targets for continuous improvement, aimed at further reducing the environmental impact in all processes.

GOTS

The Global Organic Textile Standard (GOTS) is an internationally recognised standard that ensures care and respect for the environment and workers along the entire textile production and supply chain.

The GOTS approach encompasses not only the cultivation of organic fibres, but also the care and respect for the environment as well as the reduction of environmental impact during all processes involved. This includes everything from cultivation to delivery of the garment to the customer, as well as improving the working conditions of all those involved in the garment manufacturing process.

The GOTS standard goes beyond the adoption of general principles by companies. Compliance requires the implementation of specific measures such as: ecological farming practices, elimination of banned chemicals, reduction of consumption, waste and dumping, establishment of fair wages, among many others.

Do you know about Velilla EcoMade?

Within our Green Project programme, we also promote initiatives that seek to develop garments that are more respectful of the environment and society. This is how our EcoMade series came about.

The manufacturing process for our EcoMade models is more sustainable, as it uses 70% less water than conventional production, and also transforms waste into useful energy.

Uniformity with the same robustness and comfort, but with less impact on the planet. Discover our EcoMade series on pages 122-125 and 262-265 of this catalogue and join the change.

High Visibility

Our wide range of certified products improves the visibility of workers in hazardous conditions, thereby reducing the likelihood of accidents and improving their safety. This set of garments has been especially conceived to adapt to the needs and requirements of each industry sector or profession.

Thanks to its certification, we guarantee that its design complies with strict standards and has excellent signalling capabilities thanks to its fluorescent colour and reflective tapes.

Introduction to High Visibility

The **safety of professionals is essential** when they are working in risky situations and their physical integrity is at risk. That is why we offer you a **wide range of certified high visibility garments aiming** to protect workers.

● Segmented tape range

High visibility without seams? It is possible with our heat-sealed segmented tape.

Thanks to the application of heat-sealed segmented tapes, these garments provide the user with **mobility and comfort**, while guaranteeing protection thanks to their certified reflective properties.

● High-visibility cotton range

An innovative selection of garments combining the benefits of this natural fibre without renouncing its high visibility certification. They offer the user protection in hazardous conditions, with all the benefits of cotton: **comfort, breathability, hypoallergenic properties, softness and durability.**

Soft shell

The success of our extraordinary soft shell fabric lies in its **triple-layer composition**. The key lies in its structure, which allows it to keep the body warm while regulating air circulation, favouring **breathability**. Moreover, its elastic outer shell not only protects professionals from rain and wind, but also ensures their safety as it is approved and complies with current high visibility regulations.

Our **light and flexible jackets** will become the workers' best allies, offering them the protection they need to carry out their tasks comfortably, even if it is in low-visibility outdoor environments.

High Visibility Combination chart

Putting together High Visibility team uniforms is a simple task thanks to our **wide range of functional designs and multiple colours**. Find the outfit that best suits your needs and match it to your liking.

SEGMENTED TAPE

Do you know our segmented tape range?

All reflective properties, **now seamless!** Thanks to the heat-sealing process of our segmented tape to the garments, the user experiences total freedom of movement. Most importantly, despite being seamless, the Reflatex RS segmented tape range is **certified** for its reflective properties. Discover the sweatshirts, polo shirts, T-shirts and trousers references with segmented tape.

Do you know our high visibility soft shell range?

Our jackets are all-road thanks to their **high-performance triple-layer fabric**. Its composition offers excellent insulation to the user, regulating air circulation while keeping the body warm. **Waterproof and windproof**, they guarantee the comfort of professionals without compromising on safety and certification. Discover these attractive models that stand out for their **breathability, elasticity and waterproofing**.

Enhanced Visibility

EN 17353

EN 17353

Do you know our enhanced visibility range?

We have a selection of garments certified under the UNE **EN 17353**, class B3 standard, especially designed for professionals working in **medium-risk environments**. Its retro-reflective tapes, placed on the torso and/or limbs, allow the recognition of the shape and movement of the user in **night-visibility conditions**. Discover all our references to offer the greatest safety and comfort to workers.

Regulation CE

Hereafter, we detail a short description about the additional and basic requirements established by the European regulations on safety footwear:

EN ISO 20344

This regulation defines the testing methods for occupational and safety footwear. It is used alongside the regulations EN ISO 20345 and EN ISO 20347, wherein the requirements that footwear must comply with according to the risk levels are detailed.

EN ISO 20345 | Specifications for safety footwear

This international standard details the additional and basic requirements for safety footwear, including mechanical risks: safety toe designed to resist a maximum impact of 200J and crushing up to a force of 15 kN, slip resistance, thermal risks and ergonomic characteristics.

EN ISO 20347 | Specifications for work footwear

This international standard details the additional and basic requirements for occupational footwear that is not exposed to any mechanical risks (impact or compression).

SB	Toe with impact resistance up to an energy equivalent to 200 J and compression force of 15 kN.	S1	S2	S3
SRA		Slip resistance		
SRB		SRA	Ceramic floor with detergent	
SRC		SRB	Steel floor with glycerine	
		SRC	SRA + SRB	
FO	 Hydrocarbon-resistant sole			
A	 Anti-static footwear with resistance over 100 kΩ without surpassing 1.000 MΩ			
E	 Energy absorption in the heel area not superior to 20 J			
WRU	 Resistant to water penetration and absorption			
P	 Insole with a resistance to perforation up to 1.100 N			

Icons

SB Toe with impact resistance to 200 J of 15 kN

S1 SB + Anti-static properties
Resistance to oils and hydrocarbons
Energy-absorbing heel area

S1P S1 + Anti-perforation insole

* **01** S1 without reinforced toe

S2 S1 + Resistance to water penetration and absorption

S3 S2 + Resistance to perforation

* EN ISO 20347

UNE-EN 61340-5-1 Electrostatic Protection

Antistatic footwear is used when it is necessary to minimize the risk of accumulation of electrostatic charges by dissipating them in the shortest possible time; guaranteeing the safety of the worker in areas with electronic control machines. It provides additional protection for resistances less than 100 kΩ.

Introduction to the Industry family

When it comes to workwear, comfort and functionality are two fundamental aspects that must be at the service of professionals. Our Industry family also attaches great importance to its design, a key element of the company's corporate identity.

WOMAN

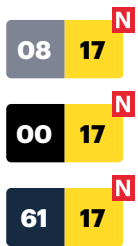

Even more comfortable!

The aim of our garments is to become your second skin, so now you can find our most iconic Industry best sellers in women's models.

This selection of references has been redesigned to fit the female body shape, providing a significant improvement in comfort and freedom of movement. The same strength and versatility, with an adjusted fit.

What's new in TotalMatch

New outfits with a touch of yellow!

In this edition, we have added a new contrasting colour to complete our Total Match range: Yellow. With this new addition, we make it even easier for your uniforms to reflect your company's corporate identity, increasing the number of available colour combinations to 15.

What are you waiting for to find yours?

New Product

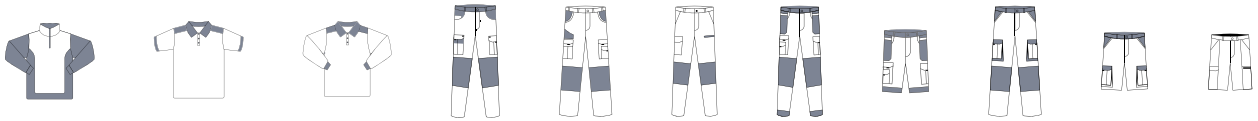

More and more workers are opting for the versatility of soft shell jackets. Flexibility, lightness and protection, now also in our most complete range: Total Match!

106004 / Two-tone soft shell jacket

07 **08** **N**

Introducing a new colour that you will find in this catalogue in our Solid Match range: White. For all those workers looking to differentiate themselves with a quality option, such as those in the paint sector, it will be very easy thanks to these new light-coloured outfits.

New Products

In addition, in this edition we are upping the ante with the addition of three new products to the Solid Match range. A very versatile and resistant product assortment to adapt to the needs of the most demanding professionals:

103032S
Two-tone stretch trekking bermuda shorts

105529S
Long sleeve two-tone stretch polo shirt

103031S
Two-tone multi-pocket stretch trousers

Other new colours

100% Cotton Range

We have expanded the colour range in a selection of products that are always a guarantee of success. Now you can find the 103003, 103013 and 106003 references also in two foolproof colours: the classic Royal Blue and Black.

Soft shell Range

You can now have our high-performance three-layer soft shell fabric in White. We have added this new colour option to our versatile jacket 206005 and practical vest 205905 to add a modern touch to your uniforms!

Do you know our Denim range?

Denim has been a part of workwear for decades, as it is designed to be **durable and comfortable**. At Velilla we have raised the stakes by creating our denim collection, even more comfortable thanks to our **Stretch fabric**.

Did you know that our jeans are **EcoMade**? In their production, **70% less water** is used compared to conventional jeans. This is how we protect the planet and all of us living on it.

VELILLA

Do you know our 100% cotton range?

Our 100% cotton references are always a **guarantee of success**. Our secret lies in designing garments adapted to the different needs of professionals, combined with **the benefits of this natural fibre**. Cotton works as a heat insulator, resists high temperatures, has good colour fastness, favours breathability, is hypoallergenic, has a soft touch... Discover all our references in this catalogue.

Food Industry

Our range of garments and accessories is intended for workers involved in food handling and packaging processes. The difference being that they are specifically designed not to release elements and to avoid pollutants. These are specific garments that help to maintain the hygiene and safety of workers and products.

We also have a full range of garments adapted to work in cold environments as well as a range of disposables.

Healthcare and Services

Our versatile assortment of scrub sets, lab coats and accessories is available in attractive colour palettes. These garments stand out not only for their quality and reliability, but also for their comfort thanks to the composition of their fabrics and their elasticity.

These high-performance fabrics are distinguished for their hygiene and comfort, two essential attributes for health and veterinary professionals, in beauty clinics, gyms and spas or cleaning services, among others.

Introduction to the Healthcare and Services family

Our sets and lab coats have been specially designed to provide the user with unrivalled comfort and to withstand the most demanding day-to-day challenges. Thanks to our experience, we have developed garments that become a second skin so that professionals can do what they do best: their work. Discover all the secrets of our different fabrics, as well as our range of attractive colours and designs.

Smart Micro+fiber

Smart Antimicrobial Protection

Our high-performance Smart Microfiber® fabric with SilverPlus® treatment is the best solution for hygiene, protection and freshness. Our microfibre is characterised by its softness, elasticity and breathability. Thanks to its silver ionic finish, it protects fabrics from odour-causing bacteria. In addition, its water-repellent finish transports body moisture away from the fabric.

FABRIC STRETCH®

Smart fabric for comfort

Our stretch sanitary fabric is always a guarantee of success. With this range of sets you will enjoy the main advantages of our well-known stretch fabric, characterised by its softness, durability and great recovery capacity. These garments provide professionals with an extra sense of comfort, thanks to their pleasant texture and soft feel, and allow them to have great freedom of movement.

PolyCotton

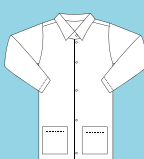

Our high-quality twill fabrics are characterised by their high durability and pleasant wearing comfort. As well as being soft to the touch, it is very easy to maintain: it is very easy to wash, does not fade or warp, which makes this range the right choice for all professionals. Thanks to its remarkable durability, you can enjoy a longer garment lifespan.

Lab coats

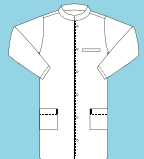

Our wide range of lab coats offers different solutions for all professionals. In this catalogue, we offer lab coats in different fabrics and compositions, designs, lengths and fittings, so that you will always find what you are looking for and adapt them to the needs of each worker.

Introduction to the Hospitality Kitchen family

— Our fabrics

Kitchen professionals' work is highly demanding due to the constant challenges they face on a daily basis. For this reason, we offer a selection of garments incorporating high-performance fabrics and a variety of comfortable and attractive designs. With Velilla, your uniform will become your best kitchen help.

Our stretch fabric stands out for its stretchy and softness, favouring the user's freedom of movement and comfort. In addition to their durability and resistance to tearing, these garments are always a good choice, as they are easy to maintain, thanks to their wrinkle free, quick-drying fabric.

Our Smart Microfiber® fabric provides softness, elasticity and breathability. In addition, due to its SilverPlus® finish, a treatment composed of antibacterial silver ions, it stands out for providing hygiene, protection and freshness to the user. And to top it all off, it is very easy to maintain thanks to its anti-wrinkle and liquid repellent properties.

Coolmax® fabric makes the garments a sensible choice when it comes to equipping kitchen professionals, as it helps evaporate humidity and favours breathability. This fabric has been designed to generate a circulation system that moves moisture away from the skin to the outer layer of the fabric, while regulating the user's body temperature.

GesDry+ fabric combines innovation and comfort, putting them at the disposal of professionals. Thanks to its technology, it stands out for its ability to channel moisture to the outer surface of the fabric, maintaining a constant body temperature, as well as for its remarkable lightness and softness.

Teflon™ treated fabric is highly recommended in the kitchen due to its remarkable water, oil and stain repellency. Garments stay looking as good as new for longer due to their resistance to dirt and splashes, requiring less frequent care than conventional fabrics.

Annexes

The following pages contain elements that have been developed to make our customers' everyday life easier.

We provide you with displays and support materials to achieve an impeccable presentation and highlight our products at the point of sale.

In addition, other tools are available to serve as a guide when selecting quantities, sizes and colours for your orders, as well as information on the current regulations that our products comply with.

Point of sale	296 / 297
Units per carton	298
Regulations	299
Size guide	300
Measurement tables	301
Colour chart	302 / 303

Point of Sale

We provide our customers with different materials specially designed to decorate their point of sale. Elements that will make the display of our products more dynamic, highlighting them and providing a renewed and attractive image. **Contact your sales manager.**

Display Stands

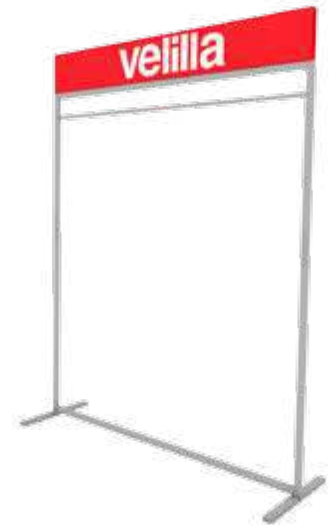

We offer displays made of different materials, such as cardboard, metal or wood; sizes and capacities to adapt to all our customers' needs.

Wall displays

Garment rack with wheels

Garment rack

Visuals

We offer our clients a variety of attractive visuals to dynamise and decorate their point of sale. These visuals can be adapted according to the specifications of each location, and printed on different supports such as billboards, canvases or posters.

Regulations

EN ISO 13688

Protective clothing.

This standard specifies the general requirements for ergonomics, safety, sizing, aging and labeling of protective clothing. It can only be used in conjunction with other regulations.

EN 14058

Cold Environments.

Protection against the effects of cold environments between -5°C and 10°C.

	Y	Thermal resistance type
	Y	Air permeability type (optional)
	Y	Water penetration resistance type (optional)
	Y	Insulation value, $I_{cl,air}$ in m ² k/W (optional)
	Y	Insulation value, $I_{cl,ext}$ in m ² k/W (optional)

EN ISO 11611

Welding and related processes.

Protection against splashes, short contact with flame and radiant heat from the electric arc. Minimizes the risk of electric shock from contact with conductive materials.

	Type 1	Protection against welding techniques and less dangerous situations that produce lower levels of molten metal spatter and heat radiation
	Type 2	Protection against welding techniques and more dangerous situations that produce higher levels of molten metal spatter and heat radiation

EN 343

Rain.

Protection in environments defined by the possible combination of these conditions: rain, fog, soil moisture and wind at temperatures down to -5 °C.

	X	Water penetration resistance
	Y	Resistance to steam
	X	Tested in the whole garment

EN ISO 11612

Heat and flame.

Protection against exposure to radiant, convective or contact heat and molten metal splashes. Limited flame spread.

	A1/A2	Testing method for flame propagation
	B	Convective heat (1-3)
	C	Heat radiation (1-4)
	D	Molten aluminium spatter (1-3)
	E	Molten iron spatter (1-3)
	F	Contact heat (1-3)

EN ISO 20471

High Visibility.

User visibility under daylight and / or under headlight illumination in the dark (in high-risk situations).

	X	Class determined according to the amount of fabrics and the level of visibility
---	---	---

EN 1149-5

Electrostatic properties.

Garments with electrostatic dissipation properties to avoid incendiary discharges.

EN 17353

Improved visibility.

User visibility under daylight and / or under headlight illumination in the dark (in medium risk situations).

	Visibility in dark conditions	
	Class B2	Reflective material on extremities
	Class B3	Retroreflective material on torso and extremities.

Sizes

These tables serve as a reference when deciding what size the user needs*.

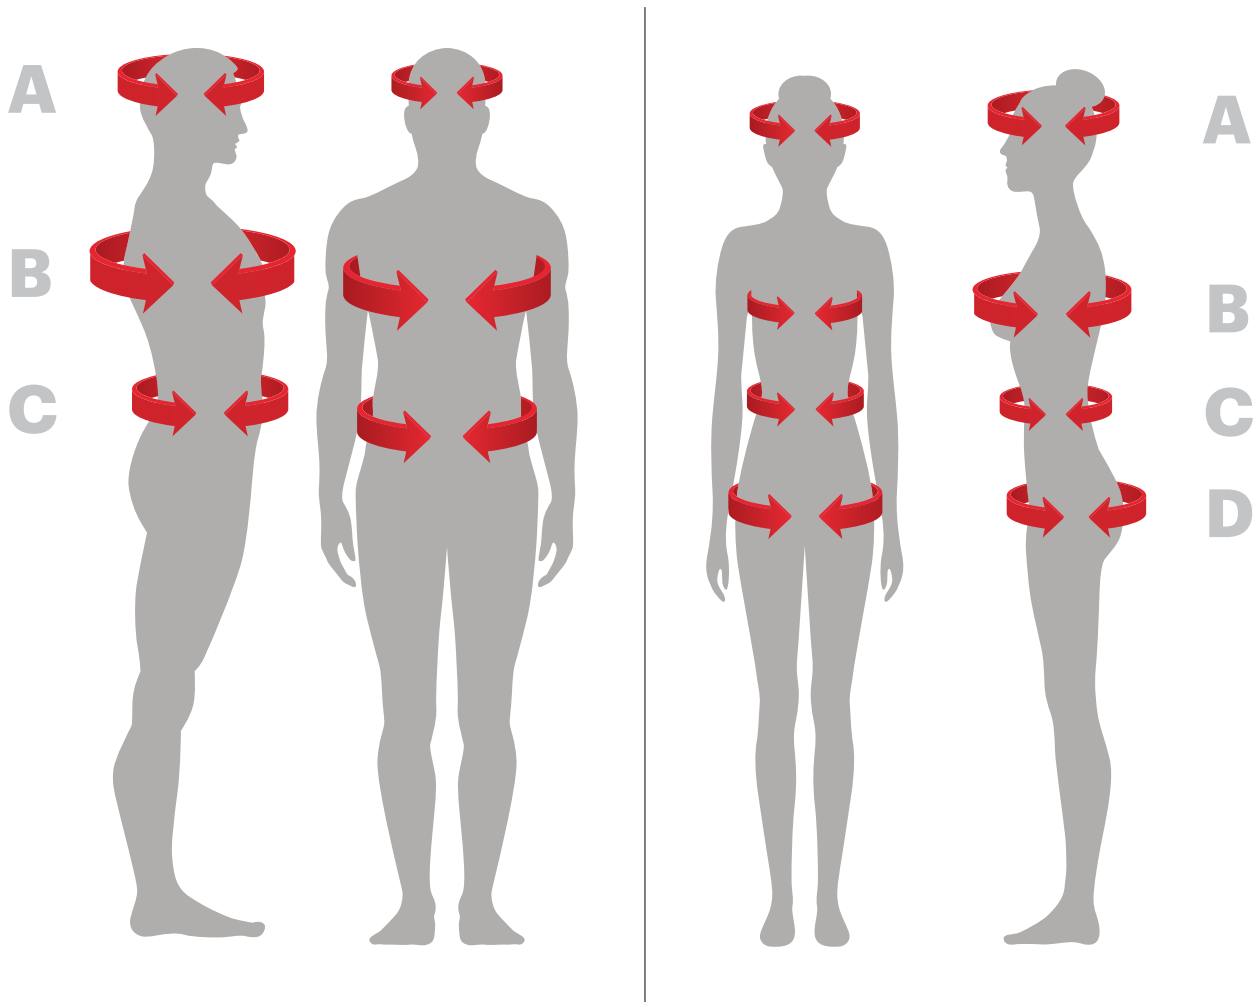

The measures given on the tables are not the measurements of the garment, but correspond to anatomical measurements taken from the naked human body.

When we manufacture a garment, we must add slack to achieve optimal comfort and convenience. This looseness varies according to design, fabric, gender, etc. making it a more or less fitted garment.

* Not all references are available in all sizes shown in the tables.

Countours:

A Head **B** Chest **C** Waist **D** Hips

i Bear in mind that, in order to take the correct sizes, you will need to measure the entire countour.
